TEAM BONDING AWAITS

Escapism Chester provides an engaging environment where teams can strengthen their teamwork skills. Our immersive escape room experiences encourage communication, collaboration, and creative problem-solving under time pressure. By working together to overcome challenges, teams build trust, improve morale, and gain a deeper understanding of each other's strengths. The result is a memorable experience that translates into stronger workplace relationships and more effective teamwork.

"We had a lot of fun and can't wait to try other rooms on offer!
10/10 Would totally recommend for a fun day out!"

-Staff from Chester Zoo

"A refreshingly fun way to challenge communication and logic skills."

-EscapeTheReview

"The puzzles were beautifully on theme and had wondrous Ah-ha moments..."

MUSEUM HEIST

The image features a dark, atmospheric photograph of a grand museum building at night, illuminated by warm interior and exterior lights. The building has a prominent portico with tall columns and a triangular pediment. The title "MUSEUM HEIST" is written in a large, white, hand-painted brush script across the center of the image. The entire scene is framed by a thick yellow border, and the background is decorated with several yellow paint splatters of varying sizes.

MUSEUM HEIST

The priceless Relic of Danvik has just been delivered to your local Museum for one night only and is under strict security. You must retrieve the artefact and replace it with a fake without detection. It is up to you to find your way in and your way out.

Sneak past the security system, steal your prize and escape the Museum! The guards monitor the artefact hourly and they've just left, now's your chance!

The image is a dark, textured composition. In the background, a large, dark biohazard symbol is visible. To the right, there is a circular, glowing red and orange nuclear reactor core. Below it, a black handgun is partially visible. The word "RADIOACTIVE" is written in a white, stylized, brush-stroke font across the center. The entire image is framed by a yellow border with yellow splatters and dots scattered around it.

RADIOACTIVE

RADIOACTIVE

There had been suspicion that M.Corp had been experimenting with radiation and it was confirmed when there was a nuclear explosion devastating the surrounding area. The lingering radiation is turning survivors into mutants. An underground research facility nearby has been working towards a possible treatment, but an emergency distress signal has been sent out and you've been tasked to recover the antidote research. Upon arrival, however, it seems the facility's self-destruct sequence has been initiated...
